

How safe is YOUR horse trailer?

**The horses involved in this accident survived with minimal injuries*

Don't let this be you!

Free Trailer Safety Seminar

Nothing is more tragic than a preventable accident. Our horses should have the benefit of a trailer that has been checked for safety every time they are loaded for a ride. Your cargo is precious, so it's worth the time to make sure you're doing things the best you can.

▶ June 30th, 2010 6:30PM - 8:00PM ◀

Performance Equine Dental & Veterinary at 28512 112th St E, Buckley, WA 98321

Learn about the trailer safety checklist, see example rigs, learn about weight distribution, and get all your questions answered by professionals. Partake of refreshments, service discounts, and receive a booklet packed full of information, checklists, and discounts to make your hauling season worry-free!

Anyone who hauls a horse is invited to benefit from this training from trail riders to team penners to 3-day eventers.
