

Thurston County “Talkin-Trash” fall 2007

**MANURE AND SPOILED FEED:** An average 1,000-pound horse produces 9 tons of manure a year (50 pounds per day) containing valuable fertilizer elements. If you need to get rid of horse manure, take a drive to Silver Springs Organics in Rainier. The facility accepts horse stall waste (manure and bedding), and spoiled feed (hay, grain, silage). Silver Springs also accepts cow, chicken, goat and sheep manure (no liquid, cat or dog waste). Your nnnneeeigh-bors will thank you. Tipping fees apply.

Silver Springs Organics 360-446-SOIL (7645) or visit [www.silverspringsorganics.com](http://www.silverspringsorganics.com).
